Enel Distribución Perú improves EBITDA by September 2016

Lima, 27 October 2016 – The board of directors of Enel Distribución Perú (former Edelnor), headed by Carlos Temboury, approved the company’s financial and operational results for the period January-September 2016.

“We are pleased about the results of Enel Distribución Perú”, stated Carlos Temboury, Enel Country Manager in Peru.

“The company’s results have improved significantly in comparison with last year’s same period thanks to the increase of energy sales in both the regulated and deregulated market and the improvement in infrastructure projects. Our investments are mainly oriented towards the improvement of service quality, which confirms our commitment to the Peruvian electricity sector”, added Temboury.
