

NOTA DE PRENSA

ENEL PERU CLOSES PURCHASE OF SHARES IN LOCAL COMPANIES FROM ENEL AMERICAS

Enel simplifies its corporate structure to enhance value creation in Peru

Lima, October 25, 2017. Enel Perú S.A.C. finalized the purchase of shares that its parent company, Enel Américas S.A., held directly in local companies Enel Distribución Perú S.A.A. and Enel Generación Perú S.A.A., which account for 24.0% and 29.4% of their equity, respectively.

With these transactions, Enel Perú S.A.C. now owns 83.6% and 83.15% of Enel Generación Perú S.A.A. and Enel Distribución Perú S.A.A., respectively. Both transactions do not represent an increase of the share of the Enel Group in its Peruvian subsidiaries, as they were purchased from Enel Américas S.A., a company from the same Group which is headquartered in Chile.

Enel has therefore simplified its corporate structure and streamlined its decision-making process in Peru in line with the Group's global strategy, in order to enhance value creation in the country.
